# USER MANUAL

# INDUSTRIAL ATTACHMENT MANAGEMENT SYSTEM (IAMS)

# LECTURER

I.

**Diagram 2.1 Application Status Page Dashboard Lecturer**

After logging in, the lecturer is taken to the dashboard, which displays a top navigation bar and three colored boxes showing the internship status only for the lecturer's own students: not yet placed, received one offer, or confirmed placement. This gives a quick overview of their students' progress. The logged-in lecturer's name is also shown at the top right corner beside the logout button.
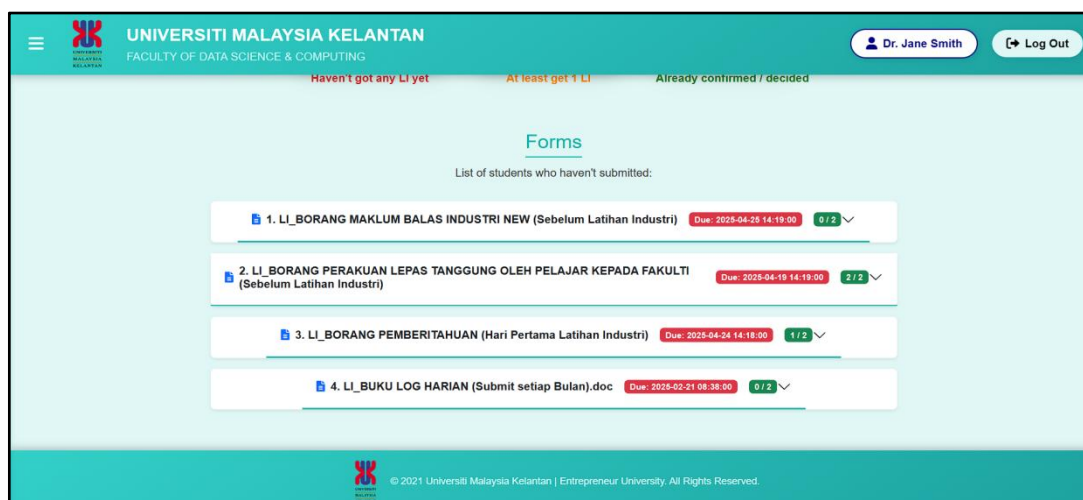

II.

**Diagram 2.2 Forms Page Dashboard Lecturer**

Below the status section, the lecturer can see a list of forms with their titles, due dates, and submission progress. Each form shows a green/red indicator displaying how many of the lecturer's own students have submitted out of the total. For example, "0/2" means none of the 2 assigned students submitted. If all have submitted, a message appears saying "All students have submitted this form ✓". Clicking a form reveals the names of students who haven't submitted. This feature displays data only for students under that lecturer.
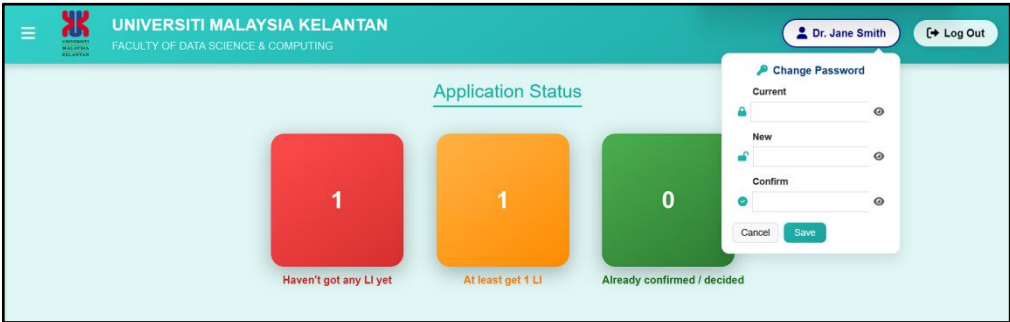

III.

**Diagram 2.3 Function Change Password Page Lecturer**

When the lecturer clicks their name at the top of the page beside the Logout button, a pop-up modal appears allowing them to change their password. The modal contains input fields for the current password, new password, and confirmation. It also includes eye icons to toggle password visibility, along with "Cancel" and "Save" buttons for easy submission.
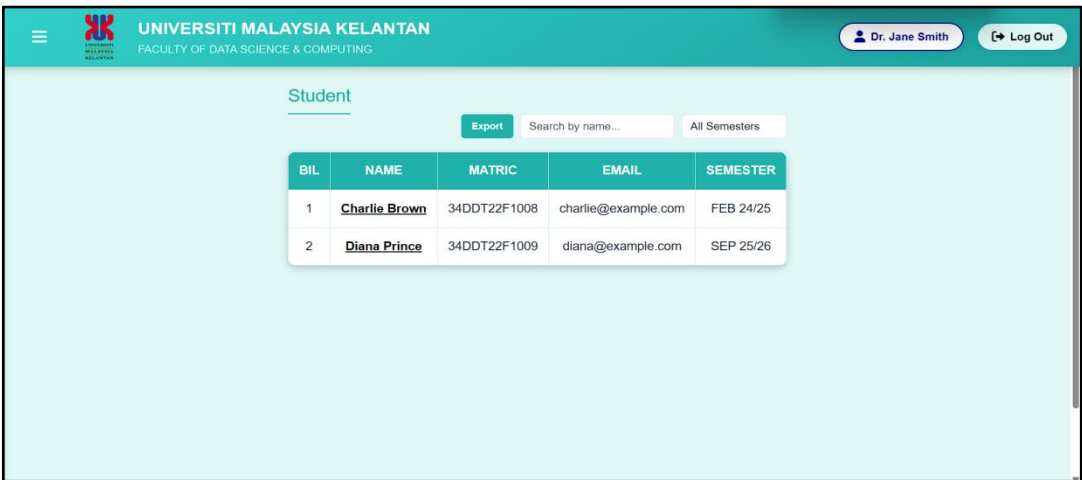

IV.

**Diagram 2.4 Page Student List**

This page shows the list of students assigned to the logged-in lecturer. The table displays each student's name, matric number, email, and semester. Lecturers can search students by name, filter by semester, and export the list as a CSV file. Each student's name is clickable and links to their profile page.
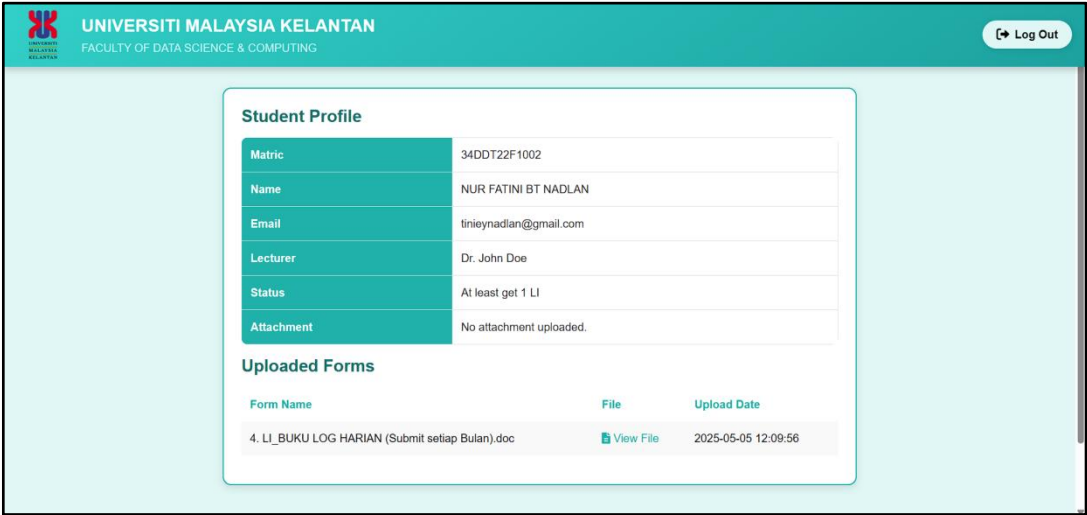

V.

**Diagram 1.10 Page Student Profile**

On the Student List page, the lecturer can click a student's name to view their full profile on this page. The profile displays the student's matric number, name, email, assigned lecturer, internship status, and any uploaded attachment. Below, a list of uploaded forms is shown, including file names, view links, and upload dates. This page helps the admin easily track a student's progress and document submissions.
